Profile

I am interested in creating a quality finished product by designing innovative web applications that are accessible and follow W3C standards. I am a team player with a good sense of humor. I am also an enthusiastic learner and excited about agile development practices.

Experience

Freelance Web Designer and Developer — 2001-present

I have been taking odd jobs over the years. Clients include, but are not limited to: El Capitán's, Dream Science Circus, and the Mud Bay Jugglers. Please see my portfolio.

Web Developer, Genesis Design & Media; Fairbanks, AK — 2006-2007

Collaborated with a graphic designer to create sites for Genesis Design & Media's clients. PHP, Ruby on Rails, javascript and CSS. — <http://genesisdsm.com>

PHP/CGI Programmer and Linux System Administrator, Office of University Residences :: Housing Information Technology Services at Western Washington University; Bellingham, WA — 2002-2005

Developed many web applications using PHP and MySQL
Converted Perl/CGI apps to PHP
Wrote system administration scripts in Perl and Bash
— <http://housing.wvu.edu>

System Administrator Assistant, Olympia School District; Olympia, WA — 2002-2003

Co-designed the Open Schools Project: <http://sourceforge.net/projects/openschools/>
released under the GPL
Developed a distributed LTSP system with 4 servers and a MySQL database to track thin-clients. Wrote a perl/gtk2perl front end to administer the database.

Intern, Olympia School District; Olympia, WA — 2001-2002

Research and writing system scripts (in bash and perl) for the system administrator
Built a firewall for the school district

Education

Fairhaven College, Western Washington University, Bellingham, WA — 2002-present
Studied theatrical lighting design, music, and computer science, and plan to graduate with a BA in Music and a minor in Computer Science

University of Alaska Fairbanks, Fairbanks, AK — fall 2006
Studied computer science for one semester while working for Genesis Design & Media
